

2011 – Year of the Entrepreneur:

Small to medium sized businesses account for 98 per cent of all businesses across Canada. In the West we average about 8.5 small businesses per hundred population, well above the 6.4 rate for the rest of Canada. And in Saskatchewan we lead the provinces with an average of 10.2 small businesses per hundred population.

2011 has been designated ***Year of the Entrepreneur*** by both the Canadian and Saskatchewan governments. There are plenty of good reasons to celebrate our entrepreneurs. For one, small and medium sized businesses contribute to Canada's ongoing economic success. Resilient and innovative Canadian entrepreneurs help create jobs, strengthen communities and encourage competitiveness. In fact, small and medium sized businesses contribute about 50% of our country's gross domestic product (GDP).

In our region new businesses are opening, existing businesses are expanding and our communities are making room for new residents. We're extremely pleased to be part of that positive energy.

Each day we talk to enterprising men and women who have the right skills to bring a product to market, employ local folks and contribute to our community's well-being. So whether you're just getting started or have been in business for a while we're happy to speak with you about our small business services including financing solutions. Call us.....we're good listeners.
